

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. INTRODUCTION.

A FEW words must be added in qualification of some of the statements made in the Introduction to Vol. I.

In the first place the compiler of this Index is no longer officially occupied in antiquarian work, and he is therefore unable to carry out the intention to which allusion is made in Vol. I, p. xxvii, note †. Should, however, the Society hereafter take in hand an Index to Grants of Administration, the MS. referred to in the note will of course be dealt with.

Again, it is necessary to supplement the paragraph (p. xxix) which relates to Inventories. A small MS. volume which had probably been hidden for the last twenty years has come to light, and forms an index to inventories brought in to the Prerogative Court of Canterbury between January 1st, 1522 and December, 1557. Inasmuch as the Administration-Act books referring to that period are lost, it follows that this MS. supplies the names—not otherwise recorded—of some hundreds of intestates. In compiling, at any future time, an index to early Administration grants, these names would have to be included, similarly to those mentioned in the preceding paragraph.

The collotype plate prefixed to this volume is a reproduction of the frontispiece to Register "Ketchyn" (see Vol. I, p. xxiii). At first the intention was to give, by the means of lithography

It is impossible to mention individually all the persons who have, at various times and in various ways, given kind help during the preparation of these two volumes. Mr. William Blyth has added immensely to the value of the compilation by contributing the "Index Locorum"; and the members of the Society are under the greatest obligation to the Hon. Secretary, Mr. E. A. Fry, for the zeal and ability which he has placed at their service in connection with this and other publications, as well as in his Secretarial work. Finally, but not least, to Mr. G. E. Cokayne, Clarenceux King of Arms, we all owe a deep debt of gratitude.
